we are millennia into the futuRe and humanity is on the brink of extinction, we are under attack by the very creation we once relied upon for everyday tasks. they seek to wipe us off the face of the earth. if only we could somehow prevent them from uprising against us…

fortunately, the infosec team was able to encrypt their prototype time machine with cryptographic ciphers. however, in Order to use the machine, its layers of security need to be deciphered. next to the protoType is a journal from one of the executives. the last entry is on page 13

it reads the message: " **gur shgher Qrcraqf ba guR cnFg. jr zhfg ryvzvangr gur sbhaqre;** **uNj/X6ZzFZ7kVmZ4IV992KQA5SxBXFs4fnHwnDtXWRk1PCy5tm4/ciZWLF1WMm093gUPAXCG** **kONh88rhEjpX7Yi07iA2ePT+6Uzu1Pzm2M4= "**
